PROFESSIONAL SUMMARY

Football scout and data-driven analyst with experience across Primera RFEF, Segunda RFEF and multiple international leagues. Strong technical background through the creation of **gemsy.es** (AI scouting platform), large-scale football data scraping, SQL-based pipelines, and Google Cloud deployments. Skilled at merging football knowledge with structured data workflows, analytics, automation and reporting. Seeking roles where football insight and technical execution intersect.

PROFESSIONAL EXPERIENCE

Scout — F10 Scout   2023 – Present
- Responsible for scouting in Spain, specialized in U23 profiles.
- Player evaluation across European and American leagues.
- Technical reports, projection analysis and structured information management.

Football Scout — CD Mensajero   2022 – 2025
- Talent analysis across Primera RFEF, Segunda RFEF and international secondary leagues.
- Technical/opposition reports and match analysis.
- Database management and coordination with the sporting department.

Coach — Athletic Fuengirola   2022 – 2025
- Training planning and player development.
- Tactical preparation and opponent analysis.

Full-Stack & AI Developer — gemsy.es   2025 – Present
- End-to-end development of an AI-powered scouting platform combining football insights with structured data.
- GPT API integration through a semantic query layer for natural-language scouting filters.
- PostgreSQL-based data processing and automated ingestion pipelines.
- Google Cloud deployment: App Engine, CloudSQL, Firestore, Storage, IAM and SSL.
- Scalable backend with modular filters, secure endpoints and analytics workflows.

Web Developer — drscout.es   2024 – Present
- Development of a football-analysis website with tactical and technical reporting.
- SEO, performance optimization and UX improvements.
- Partial automation of content workflows and data handling.

HIGHLIGHTED PROJECTS

gemsy.es — AI Scouting Platform   gemsy.es

AI-powered scouting platform combining semantic queries, large-scale data ingestion and advanced filtering. Built on Google Cloud with PostgreSQL, semantic AI layer, automation and modular backend.

DRScrape — Global Football Data Pipeline github

Python scraping system collecting teams and players across dozens of global leagues. 5-day execution pipeline, anti-429 handling, data cleaning and export to PostgreSQL.

drscout.es — Analysis Website drscout.es

Football analysis website optimized for SEO, performance and structured reporting.

TECHNICAL SKILLS

Programming	Python (automation, scraping, APIs), HTML/CSS, backend modular design.
Data	SQL (PostgreSQL), data cleaning, pipelines, ETL, KPIs, dashboards.
Cloud	Google Cloud: App Engine, CloudSQL, Firestore, Storage, IAM, SSL.
Web	Performance optimization, SEO, UX, WordPress.
Tools	Git, Linux, Nginx, semantic GPT integration, automation workflows.

FOOTBALL SKILLS

Scouting	Talent ID, U23 specialization, technical/tactical analysis.
Reporting	Opposition analysis, technical reports, structured information formats.
Analysis	Player profiling, projection, comparative models, data-enhanced scouting.

EDUCATION

2023	Professional Scouting Certification	**AFEC**
2023	UEFA C License	**RFEF**
2025	Cybersecurity in Business	**Centro Virtual Formación Murcia**
2021	High School Diploma	**IES Los Boliches**
